

Colorado Birds

The Colorado Field Ornithologists' Quarterly Vol. 44 No. 1 January 2010

Adult light-morph Harlan's Hawk (*Buteo jamaicensis harlani*) photo composite. Top: Photographed by Jerry Liguori, Gunsight Mountain, Alaska, 13 April 2009. Bottom: Photographed by Bill Schmoker, near Hygiene, Colorado, 21 February 2009. Feather-by-feather analysis shows this to be the same bird (see article p. 16).
